### **Ban / Mute Evasion**

Going on alts, or misusing commands such as report and messages to evade a mute or ban is not allowed in any way. If the player's sibling or someone using the same IP as the player punished logs on, the new player will be punished the same way. However both the originally punished player and the newly punished player (sibling / friend) must join a voice chat with a staff member to verify this. The sibling or friend will be unbanned / unmuted if this can be confirmed. (This will be done by the two punished players speaking out of the same microphone)

- First offense: Double original punishment length, as well as punish any ALT the player was using to evade. If the player was permanently muted, or banned, they will be permanently IP-banned.
